## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information and Authorization for Issuance of Financial Statements

## Corporate Information

Philippine Seven Corporation (the Company or PSC) was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on November 29, 1982. The Company and its subsidiaries (collectively referred to as "the Group"), are primarily engaged in the business of retailing, merchandising, buying, selling, marketing, importing, exporting, franchising, acquiring, holding, distributing, warehousing, trading, exchanging or otherwise dealing in all kinds of grocery items, dry goods, food or foodstuffs, beverages, drinks and all kinds of consumer needs or requirements and in connection therewith, operating or maintaining warehouses, storages, delivery vehicles and similar or incidental facilities. The Group is also engaged in the management, development, sale, exchange, and holding for investment or otherwise of real estate of all kinds, including buildings, houses and apartments and other structures.

The Company is controlled by President Chain Store (Labuan) Holdings, Ltd., an investment holding company incorporated in Malaysia, which owns 56.59\% of the Company's outstanding shares. The remaining $43.41 \%$ of the shares are widely held. The ultimate parent of the Company is President Chain Store Corporation (PCSC, incorporated in Taiwan, Republic of China).

The Company has its primary listing on the Philippine Stock Exchange. As of December 31, 2011 and 2010, the Company has 666 and 684 equity holders, respectively.

The registered business address of the Company is 7th Floor, The Columbia Tower, Ortigas Avenue, Mandaluyong City.
2. Summary of Significant Accounting Policies and Financial Reporting Practices

## Basis of Preparation

The consolidated financial statements are prepared under the historical cost basis, except for parcels of land, which are carried at revalued amount. The consolidated financial statements are presented in Philippine Peso (Peso), which is the Company's functional currency.

## Statement of Compliance

The consolidated financial statements, which are prepared for submission to the SEC, are prepared in compliance with Philippine Financial Reporting Standards (PFRS).

## Basis of Consolidation

The consolidated financial statements include the accounts of the Company and the following subsidiaries:

|  | Country of <br> Incorporation | Percentage of <br> Ownership |
| :--- | ---: | ---: |
| Convenience Distribution, Inc. (CDI) | Philippines | 100 |
| Store Sites Holding, Inc. (SSHI) | Philippines | 100 |

## Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from the date of acquisition and that are subject to an insignificant change.

## Inventories

Inventories are stated at the lower of cost and net realizable value (NRV). Cost of inventories is determined using the first-in, first-out method. NRV is the selling price in the ordinary course of business, less the estimated cost of marketing and distribution.

## Value-Added Tax (VAT)

Input VAT is the $12 \%$ indirect tax paid by the Group in the course of the Group's trade or business on local purchase of goods or services, including lease or use of property, from a VAT-registered entity. For acquisition of capital goods over $\$ 1,000,000$, the related input taxes are deferred and amortized over the useful life or 60 months, whichever is shorter, commencing on the date of acquisition. Deferred input VAT which is expected to be utilized more than 12 months after the balance sheet date is included under "Goodwill and other noncurrent assets" account in the consolidated balance sheet.

Output VAT pertains to the $12 \%$ tax due on the sale of merchandise and lease or exchange of taxable goods or properties or services by the Group.

If at the end of any taxable month the output VAT exceeds the input VAT, the excess shall be paid by the Group. Any outstanding balance is included under "Accounts payable and accrued expenses" account in the consolidated balance sheet. If the input VAT exceeds the output VAT, the excess shall be carried over to the succeeding month or months. Excess input VAT is included under "Prepayments and other current assets" account in the consolidated balance sheet. Input VAT on capital goods may, at the option of the Group, be refunded or credited against other internal revenue taxes, subject to certain tax laws.

Revenue, expenses and assets are recognized net of the amount of VAT.

## Advances to Suppliers

Advances to suppliers are downpayments for acquisitions of property and equipment not yet received. Once the property and equipment are received, the asset is recognized together with the corresponding liability.

## Property and Equipment

Property and equipment, except for land, are carried at cost less accumulated depreciation and amortization, and any impairment in value.

Land is carried at revalued amount less any impairment in value. The difference between cost and revalued amount goes to the equity section of the consolidated balance sheet. The revalued amount is determined by a professionally qualified independent appraiser.

The initial cost of property and equipment consists of its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the assets have been put into operation, such as repairs and maintenance and overhaul costs, are recognized in profit or loss in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of the assets.

Construction in progress includes cost of construction and other direct costs and is stated at cost less any impairment in value. Construction in progress is not depreciated until such time the relevant assets are completed and put into operational use.

Depreciation and amortization commence once the assets are available for use. It ceases at the earlier of the date that it is classified as noncurrent asset held-for-sale and the date the asset is derecognized.

Depreciation is computed on a straight-line method over the estimated useful lives of the assets as follows:

|  | Years |
| :--- | ---: |
| Buildings and improvements | 10 to 12 |
| Store furniture and equipment | 5 to 10 |
| Office furniture and equipment | 3 to 5 |
| Transportation equipment | 3 to 5 |
| Computer equipment | 3 |

Leasehold improvements are amortized over the estimated useful life of the improvements, ranging from five to ten years, or the term of the lease, whichever is shorter.

The assets' estimated useful lives and depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from the items of property and equipment. When assets are retired or otherwise disposed of, the cost or revalued amount and the related accumulated depreciation and amortization and any impairment in value are removed from the accounts and any resulting gain or loss is recognized in profit or loss. The revaluation increment in equity relating to the revalued asset sold is transferred to retained earnings.

Fully depreciated assets are retained in the books until disposed.

## Software and Program Cost

Software and program cost, which are not specifically identifiable and integral to a specific computer hardware, are shown under "Goodwill and other noncurrent assets" in the consolidated balance sheet. These are carried at cost, less accumulated amortization and any impairment in value. Amortization is computed on a straight-line method over their estimated useful life of five years.

## Deposits

Deposits are amounts paid as guarantee in relation to noncancelable agreements entered into by the Group. Deposits include rent deposits for lease, franchise and service agreements. These deposits are recognized at cost and can be refunded or applied to future billings.

## Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in administrative expenses.

Goodwill, included in "Goodwill and other noncurrent assets" in the consolidated balance sheet, represents the excess of the cost of an acquisition over the fair value of the businesses acquired. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

## Cumulative Redeemable Preferred Shares

Cumulative redeemable preferred shares that exhibit characteristics of a liability is recognized as a financial liability in the consolidated balance sheet, net of transaction cost. The corresponding dividends on those shares are charged as interest expense in profit or loss.

## Equity

## Capital Stock

Capital stock is measured at par value for all shares issued and outstanding. When the Group issues more than one class of stock, a separate account is maintained for each class of stock and number of shares issued and outstanding.

## Additional Paid-in Capital

When the shares are sold at premium, the difference between the proceeds and the par value is credited to the "Additional paid-in capital" account. When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received. In case the shares are issued to extinguish or settle the liability of the Group, the shares shall be measured either at the fair value of the shares issued or fair value of the liability settled, whichever is more reliably determinable.

## Retained Earnings

Retained earnings represent the cumulative balance of periodic net income or loss and changes in accounting policy. When the retained earnings account has a debit balance, it is called "deficit." A deficit is not an asset but a deduction from equity.

## Treasury Stock

Treasury stock is stated at acquisition cost and is deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of the Group's own equity instruments

## Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably. The Group has assessed its revenue arrangements against the criteria enumerated under PAS 18, Revenue Recognition, and concluded that it is acting as principal in all arrangements, except for its sale of consigned goods. The following specific recognition criteria must also be met before revenue is recognized:

## Merchandise Sales

Revenue from merchandise sales is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer. Revenue is measured at the fair value of the consideration received, excluding discounts, returns, rebates and sales taxes.

## Franchise

Franchise fee is recognized upon execution of the franchise agreement and performance of initial services required under the franchise agreement. Franchise revenue is recognized in the period earned.

## Marketing

Marketing income is recognized when service is rendered. In case of marketing support funds, revenue is recognized upon achievement of the minimum purchase requirement of the suppliers.

## Rental

Rental income is accounted for on a straight-line basis over the term of the lease.

## Commission

Commission income is recognized upon the sale of consigned goods.

## Interest

Interest income is recognized as it accrues based on the effective interest rate method.

## Costs and Expenses Recognition

Costs of merchandise sold are recognized in profit or loss at the point of sale. Expenses are recognized in profit or loss upon utilization of the services or when they are incurred.

## Other Comprehensive Income

Other comprehensive income comprises items of income and expense (including items previously presented under the statement of changes in equity) that are not recognized in profit or loss for the year in accordance with PFRS

## Retirement Benefits

Retirement benefits cost is determined using the projected unit credit actuarial valuation method. Actuarial gains and losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses for each individual plan at the end of the previous reporting year exceeded $10 \%$ of the higher of the present value of the retirement obligations and the fair value of the net plan assets as of that date. These gains or losses are recognized over the expected average remaining working lives of the employees participating in the plan.

## Leases

Finance leases, which transfer to the lessee substantially all the risks and rewards of ownership of the asset, are capitalized at the inception of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between the interest income and reduction of the lease receivable so as to achieve a constant rate of interest on the remaining balance of the receivable. Interest income is recognized directly in profit or loss.

Leases where the lessor retains substantially all the risks and rewards of ownership of the asset are classified as operating leases. Operating leases are recognized as an expense in profit or loss on a straight-line basis over the lease term.

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:
a. there is a change in contractual terms, other than a renewal or extension of the arrangement; or
b. a renewal option is exercised or extension is granted, unless the term of the renewal or extension was initially included in the lease term; or
c. there is a change in the determination of whether fulfillment is dependent on a specified asset; or
d. there is a substantial change to the asset.

Where a re-assessment is made, lease accounting shall commence or cease from the date when the change in circumstance gave rise to the re-assessment for scenarios (a), (c) or (d) above, and the date of renewal or extension for scenario (b).

## Income Tax

Current Income Tax
Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted at the balance sheet date.

## Deferred Income Tax

Deferred income tax is recognized on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized for all deductible temporary differences to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences can be utilized.

Deferred income tax relating to items recognized directly in equity is recognized in profit or loss.

## Earnings (Loss) Per Share

Basic earnings (loss) per share is calculated by dividing the net income or (loss) for the year attributable to common shareholders by the weighted average number of shares outstanding during the year, excluding treasury shares.

## Segment Reporting

Operating segments are components of an entity for which separate financial information is available and evaluated regularly by management in deciding how to allocate resources and assessing performance. The Group considers the store operation as its primary activity and its only business segment. Franchising, renting of properties and commissioning on bills payment services are considered an integral part of the store operations.

## Provisions

Provisions are recognized when: (a) the Group has a present obligation (legal or constructive) as a result of a past event; (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. When the Group expects a provision or loss to be reimbursed, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in profit or loss, net of any reimbursement.

## Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefit is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the consolidated financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the consolidated financial statements

## Events after the Balance Sheet Date

Post year-end events that provide additional information about the Group's position at the balance sheet date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are non-adjusting events are disclosed in the notes to the consolidated financial statements when material.

## 3.Use of Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and notes. The judgments, estimates and assumptions used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of balance sheet date. Future events may occur which can cause the assumptions used in arriving at those judgments, estimates and assumptions to

## Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on amounts recognized in the consolidated financial statements:

## Classification of Financial Instruments

The Group classifies a financial instrument, or its components, on initial recognition as a financial asset, liability or equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset, liability or equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the consolidated balance sheet.

Financial assets are classified as financial assets at FVPL, HTM financial assets, AFS financial assets and loans and receivables. Financial liabilities, on the other hand, are classified as financial liabilities at FVPL and other financial liabilities.

The Group determines the classification at initial recognition and, where allowed and appropriate, re-evaluates this classification at every balance sheet date.

The Group's financial instruments include loans and receivables, AFS financial assets and other financial liabilities (see Note 29).

## Classification of Leases

a. Finance lease as lessor

The Group entered into a sale and leaseback transaction with an armored car service provider where it has determined that the risks and rewards related to the armored vehicles leased out will be transferred to the lessee at the end of the lease term. As such, the lease agreement was accounted for as a finance lease (see Note 26).
b. Operating lease as lessee

The Group entered into various property leases, where it has determined that the risks and rewards related to the properties are retained with the lessors. As such, the lease agreements were accounted for as operating leases (see Note 26).
c. Operating lease as lessor

The Company entered into property subleases on its leased properties. SSHI also entered into lease agreements on properties which it owns. The Company and SSHI determined that it retains all the significant risks and rewards of these properties which are leased out on operating leases (see Note 26).

## Impairment of Property and Equipment and Software and Program Costs

The Group determines whether its items of property and equipment and software and program costs are impaired on an annual basis. This requires an estimation of the value-in-use of the cash-generating units to which the assets are allocated. The preparation of the estimated future cash flows in determining value-in-use involves significant judgment, estimation and assumption.

While management believes that the assumptions made are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and may lead to future impairment charges.

## 4.Cash and Cash Equivalents and Short-Term Investment

## 15. Cumulative Redeemable Preferred Shares

Cumulative redeemable preferred shares, which are redeemable at the option of the holder, represent the share of PSC-ERP through its trustee, BPI-AMTG, in SSHI's net assets pertaining to preferred shares. PSC-ERP is entitled to an annual "Guaranteed Preferred Dividend" in the earnings of SSHI starting April 5, 2002, the date when the $25 \%$ of the subscription on preferred shares have been paid, in accordance with the Corporation Code.

The guaranteed annual dividends shall be calculated and paid in accordance with the Shareholder's Agreement dated November 16, 2000 which provides that the dividend shall be determined by the BOD of SSHI using the prevailing market conditions and other relevant factors. Further, the preferred shareholder shall not participate in the earnings of SSHI except to the extent of guaranteed dividends and whatever is left of the retained earnings be declared as dividends in favor of common shareholders. Guaranteed preferred dividends included under "Interest expense" in the consolidated statements of comprehensive income amounted to $\mathcal{F}$ 327,000, $\quad$ P364,920 and P412,380 in 2011, 2010 and 2009, respectively (see Note 21). Interest payable included under "Accounts payable and accrued expenses" in the consolidated balance sheets amounted to $\mathcal{P}(64,688)$ and $\mathcal{P} 327,000$ as of March 31, 2012 and December 31, 2011, respectively.

## 24. Retirement Benefits

The Group maintains a trusteed, non-contributory defined benefit retirement plan covering all qualified employees. Normal retirement benefits are equal to the employee's retirement pay as defined in Republic Act No. 7641 multiplied by the years of service. Normal retirement date is the attainment of age 60 and completion of at least five years of service.

The following tables summarize the components of net retirement benefits cost recognized in profit or loss and the funding status and amounts recognized in the consolidated balance sheets:
a. Net retirement benefits cost for the year are as follows:

## 25. Related Party Transactions

Related party relationships exist when one party has the ability to control, directly or indirectly through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationships also exist between and/or among entities which are under common control with the reporting enterprise, or between and/or among the reporting enterprises and their key management personnel, directors or its stockholders.

Transactions with related parties consist of:
a. The Group executed a licensing agreement with Seven Eleven, Inc. (SEI), a stockholder organized in Texas, U.S.A. This grants the Group the exclusive right to use the 7-Eleven System in the Philippines. In accordance with the agreement, the Group pays, among others, royalty fee to SEI based on a certain percentage of monthly gross sales, net of gross receipts tax.

Royalty fees recorded by the Group amounted to $\neq 30,566,438, ~ ¥ 23,285,777$ and P20,178,836 in March 31, 2012, 2011 and 2010, respectively. Royalty fees are paid on a monthly basis.

Royalty payable included under "Other current liabilities" in the consolidated balance sheets amounted to $\$ 10,047,415$ and $¥ 10,353,333$ as of March 31, 2012 and December 31, 2011, respectively.

## 26. Leases

## Finance Lease as Lessor

In March 2007, PSC entered into a five-year sale and leaseback finance lease agreement with an armored car service provider. The lease has no terms of renewal and no escalation clauses. Unguaranteed residual values accruing to the Company amounted to $\$ 300,000$.

In March 2010, the Company amended its agreement with the armored car service provider extending the lease term for another five years from March 1, 2010 to February 1, 2015, imposing $7 \%$ interest per annum on the restructured loan obligation and reducing its monthly rental payments. The unguaranteed residual values accruing to the Company was retained. The restructuring resulted in the recognition of a gain on accretion amounting to 8849,890 and is reported under "Other income" in the 2010 consolidated statement of comprehensive income.

Future minimum lease receivable under this lease as of December 31 are as follows:

|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ |
| :--- | ---: | ---: |
| Within one year | $\mathbf{P 1 , 5 9 1 , 2 8 0}$ | $\mathbf{F 1 , 5 9 1 , 2 8 0}$ |
| After one year but not more than five years | $\mathbf{3 , 7 4 7 , 7 7 3}$ | $5,339,053$ |
| Total minimum lease payments | $\mathbf{5 , 3 3 9 , 0 5 3}$ | $6,930,333$ |
| Less unearned interest income | $\mathbf{5 9 0 , 6 4 2}$ | $\mathbf{9 6 9 , 4 9 2}$ |
| Present value of future minimum lease payments | $\mathbf{4 , 7 4 8 , 4 1 1}$ | $5,960,841$ |
| Less current portion | $\mathbf{1 , 3 0 0 , 0 7 5}$ | $\mathbf{1 , 2 1 2 , 4 3 0}$ |
| Noncurrent portion | $\mathbf{P 3 , 4 4 8 , 3 3 6}$ | $\mathbf{P 4 , 7 4 8 , 4 1 1}$ |

Collection of lease receivable amounted to $\$ 1,591,280$ and $\$ 1,775,466$ in 2011 and 2010, respectively.

Present value of lease receivable as of December 31 is as follows:

|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ |
| :--- | ---: | ---: |
| Within one year | $\mathbf{P 1 , 3 0 0 , 0 7 5}$ | $\mathbf{P 1 , 2 1 2 , 4 3 0}$ |
| After one year but not more than five years | $\mathbf{3 , 4 4 8 , 3 3 6}$ | $\mathbf{4 , 7 4 8 , 4 1 1}$ |
| Total minimum lease payments | $\mathbf{4 , 7 4 8 , 4 1 1}$ | $5,960,841$ |
| Less current portion | $\mathbf{1 , 3 0 0 , 0 7 5}$ | $\mathbf{1 , 2 1 2 , 4 3 0}$ |
| Present value of future minimum lease payments | $\mathbf{P 3 , 4 4 8 , 3 3 6}$ | $\mathbf{P 4 , 7 4 8 , 4 1 1}$ |

## Operating Lease as Lessee

a. PSC has various lease agreements with third parties relating to its store operations. Certain agreements provide for the payment of rentals based on various schemes such as an agreed percentage of net sales for the month and fixed monthly rate.

Rental expense related to these lease agreements amounted to $1111,027,144$, $\mathrm{P} 97,325,422$ and $\$ 83,927,780$ in March 2012, 2011 and 2010, respectively. Of the total rent expense, $\$$ 281,115 in 2012, 2011 and 2010 pertains to contingent rent of some stores based on percentage ranging from $1.5 \%$ to $3.0 \%$ of merchandise sales. Amortization of deferred lease amounted to $\$ 1,689,184$, $\mathbf{P} 324,200$ and $\$ 385,024$ in 2011, 2010 and 2009, respectively.

The approximate annual minimum rental payments of PSC under its existing lease agreements as of December 31 are as follows:

|  | $\mathbf{2 0 1 1}$ | 2010 |
| :--- | ---: | ---: |
| Within one year | $\mathbf{P 5 2 , 9 3 0 , 8 9 9}$ | P48,966,221 |

## 28. Basic/Diluted Earnings Per Share

|  | MAR 2012 | MAR 2011 | MAR 2010 |
| :---: | :---: | :---: | :---: |
| a. Net income | P 56,344,617 | P 37,102,927 | R 50,091,930 |
| b. Weighted average number of shares issued | 347,329,216 | 302,114,918 | 302,114,918 |
| c. Less weighted average number of shares held in treasury | 686,250 | 686,250 | 686,250 |
| d. Weighted average number of shares outstanding (b-c) | 346,642,966 | 301,428,668 | 301,428,668 |
| e. Basic/diluted earnings per share (a/d) | P 0.16 | P 0.12 | P 0.17 |

The Group does not have potentially dilutive common shares as of December 31, 2011, 2010 and 2009. Thus, the basic earnings per share is equal to the diluted earnings per share as of those dates.

The Group's outstanding common shares increased from $302,114,918$ to $347,329,216$ as a result of stock dividend issuance equivalent to $15 \%$ of the outstanding common shares of the Company of $301,428,666$ shares approved on July 21, 2011 (see Note 17). Therefore, the calculation of basic/diluted earnings per share for all periods presented has been adjusted retrospectively.

## Fair Value Information

## Current Financial Assets and Financial Liabilities

Due to the short-term nature of the related transactions, the fair value of cash and cash equivalents, receivables (except for lease receivables), accounts payable and accrued expenses and other current liabilities approximates their carrying amount as of balance sheet date.

## Lease Receivables

The fair value of lease receivable is determined by discounting the sum of future cash flows using the prevailing market rates for instruments with similar maturities as of December 31, 2011 and 2010, which is $3.80 \%$ and $4.64 \%$, respectively.

## Utility and Other Deposits

The fair value of utility and other deposits approximates its carrying value as it earns interest based on repriced market conditions.

## Refundable Deposits

The fair value of deposits is determined by discounting the sum of future cash flows using the prevailing market rates for instruments with similar maturities as of December 31, 2011 and 2010 ranging from $1.66 \%$ to $5.30 \%$ and $2.74 \%$ to $6.09 \%$, respectively.

## AFS Financial Assets

The fair value of unquoted AFS financial assets is not reasonably determinable, thus, balances are presented at cost.

## Bank Loans and Deposit Payables

The carrying value approximates fair value because of recent and monthly repricing of related interest based on market conditions.

## Cumulative Redeemable Preferred Shares

The carrying value approximates fair value because corresponding dividends on these shares that are charged as interest expense in profit or loss are based on recent treasury bill rates repriced annually at year end.

Fair Value Hierarchy
As of December 31, 2011 and 2010, the Group has no financial instruments measured at fair value.

## 30. Financial Risk Management Objectives and Policies

The main risks arising from the Group's financial instruments are credit risk, liquidity risk, interest rate risk and foreign exchange risk. The BOD reviews and approves policies for managing each of these risks. The BOD also created separate board-level entity, which is the Audit Committee, with explicit authority and responsibility in managing and monitoring risks. The Audit Committee, which ensures the integrity of internal control activities throughout the Group, develops, oversees, checks and pre-approves financial management functions and systems in the areas of credit, market, liquidity, operational, legal and other risks of the Group, and crisis management. The Internal Audit Department and the External Auditor directly report to the Audit Committee regarding the direction, scope and coordination of audit and any related activities.
Listed below are the summarized risk identified by the BOD.

## Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation. The receivable balances are monitored on an ongoing basis with the result that the Group's exposure to impairment is managed to a not significant level. The Group deals only with counterparty duly approved by the BOD.

The following tables provide information regarding the maximum credit risk exposure of the Group as of December 31:

The following tables provide information regarding the credit risk exposure of the Group by classifying assets according to the Group's credit ratings of debtors:

The Group uses the following criteria to rate credit quality:

| Class | Description |
| :--- | :--- |
| High Grade | Financial assets that have a recognized foreign or local third party <br> rating or instruments which carry guaranty/collateral. |
| Standard Grade | Financial assets of companies that have the apparent ability to satisfy <br> its obligations in full. |

The credit qualities of the financial assets were determined as follows:

Cash and cash equivalents are classified as high grade since these are deposited or transacted with reputable banks which have low probability of insolvency.

Receivables, deposits and other noncurrent assets are classified as standard grade since these pertain to receivables considered as unsecured from third parties with good paying habits

The following tables provide the analysis of financial assets that are past due but not impaired and past due and impaired:

There are no significant concentrations of credit risk within the Group.

## Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial instruments. The Group seeks to manage its liquidity profile to be able to finance its capital expenditures and service its maturing debts. To cover for its financing requirements, the Group intends to use internally generated funds and sales of certain assets.

As part of its liquidity risk management program, the Group regularly evaluates projected and actual cash flow information and continuously assesses conditions in the financial markets for opportunities to pursue fund raising initiatives. These initiatives may include drawing of loans from the approved credit line intended for working capital and capital expenditures purposes and equity market issues.

The tables below summarize the maturity profile of the financial assets of the Group:

The tables below summarize the maturity profile of the financial liabilities of the Group based on remaining undiscounted contractual obligations:

## Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's fair value and cash flows interest rate risk mainly arise from bank loans with floating interest rates. The Group is expecting to substantially reduce the level of bank loans over time. Internally generated funds coming from its cash generating units and from its franchising business will be used to pay off outstanding debts and consequently reduce the interest rate exposure.

The maturity profile of financial instruments that are exposed to interest rate risk are as follows:

|  | $\mathbf{2 0 1 1}$ | 2010 |
| :--- | ---: | ---: |
| Due in less than one year | $\mathbf{P 3 7 4 , 6 6 6 , 6 6 7}$ | P320,000,000 |
| Rate | $\mathbf{3 . 5 0 \%} \mathbf{- 4 . 2 5 \%}$ | $4.20 \%-5.20 \%$ |

Interest of financial instruments classified as floating rate is repriced at intervals of 30 days. The other financial instruments of the Group that are not included in the above tables are noninterest-bearing and are therefore not subject to interest rate risk.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's income before income tax (through the impact on floating rate borrowings):

|  | 2011 |  | 2010 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Increase/ Decrease in Basis Points | Effect on Income Before Income Tax | Increase/ Decrease in Basis Points | Effect on Income Before Income Tax |

|  | -100 | 3,746,667 | -100 | 3,200,000 |

There is no other impact on the Group's equity other than those already affecting profit or loss.

## Foreign exchange risk

Foreign exchange risk is the risk to earnings or capital arising from changes in foreign exchage rates. The Group's foreign exchange exposure arises from holding foreign currency denominated rates.cash and cash equivalents, loans and receivables and merchandise sale to foreign entity. In order to balance this exposure, the Group has some sales denominated in foreign currency and maintains a foreign currency accounts in a reputable commercial bank. The Group does not enter into derivatives to hedge the exposure. The Group's cash and receivables denominated in foreign currency and converted into Peso using the closing exchange rates at the reporting dates are summarized below.

## OVERVIEW

Philippine Seven Corporation (PSC or the Company) operates the largest convenience store network in the country. It acquired from Southland Corporation (now 7-Eleven Inc.) of Dallas, Texas the license to operate 7-Eleven stores in the Philippines on December 13, 1982. Operations commenced with the opening of its first store in February 1984 at the corner of Kamias Road and EDSA Quezon City, Metro Manila. In light of the country's economic condition at that time, the Company grew slowly in its first few years of existence. In 1993, PSC, encouraged by the resurgent national economy, stepped up its rate of expansion.

As of March 31, 2012, 7-Eleven Convenience Stores has a total store count of 714, as it was able to open 27 new stores and closed 2 stores during the first quarter. The retail chain of convenience stores is sustained by a manpower complement of 633 employees engaged in store operations and in various support service units. Despite the growing competition in the convenience retailing business, the Company maintains its leadership in the industry.

7-Eleven derives its revenues principally from retail sales of merchandise, commissions, rentals and franchising activities. The primary expenses consist of cost of goods, general and administrative expense and income taxes.

PSC seeks to meet the needs of its customers and maintain a leadership position in the C-store industry by taking advantage of economies of scale, technology, people and a widely recognized brand. Its vision is to be the best retailer of convenience for emerging markets.

## FINANCIAL CONDITION AND RESULTS OF OPERATIONS DURING THE 1ST QUARTER OF 2012.

## Results of Operations

Net income generated in the first quarter rose by 52 percent to P56.3 million from P37.1 million registered in Q1 2011.

The improvement in net income can be attributed to the increase in sales, better margins and growth in franchise revenues and marketing income.

System-wide sales which represents sales of all corporate and franchise operated stores rose by 31\% year-on-year driven by the improving same store sales and opening of new 7-Eleven outlets. At the end of the first quarter, new stores opened reached 27 and closure of 2 stores occurred to end the period with 714 stores.

New franchise operators boosted franchise revenues as it grew by 25 percent to P142.2 million from P113.8 million a year ago. This improved the ratio of franchise stores to 65 percent of all stores from 61 percent at the end of Q1 last year.

Marketing income on the other hand posted an increase of 34 percent to end the period at almost P100.0 million due to the continuing support by the suppliers in various marketing activities. In addition, there was a change in accounting treatment that occurred in Q1 changing the recording of marketing income from cash basis to accrual basis.

Store selling and general and administrative expenses were well managed during the period as its increase was registered at a slower rate of 26 percent compared to the 31 percent increase in system-wide sales. This resulted into an improved average store margin that contributed positively to the bottom-line.

EBITDA (earnings before interest, taxes, depreciation and amortization) at the end of Q1 likewise went up by 41 percent from $£ 139.0$ million in 2011 to $£ 195.6$ million in the current year. EBITDA margin was pegged at 6.4 percent from 5.9 percent in the preceding year.

As can be seen from the favorable Q1 results, the Company is on track towards meeting it store expansion and profit goals for the year. This shall enable PSC in protecting its strong hold in the fast growing CVS industry and allowing it to enhance shareholder value.

## Revenue and Gross Margin

The Company registered total revenue from merchandise sales of $£ 2.7$ billion in 1Q 2012, an increase of $39 \%$ percent compared to $£ 1.9$ billion in 2011 . Cost of merchandise sold rose by $£ 580.7$ million to £2 billion during 1Q 2012.

System-wide sales grew by $31 \%$ or $¥ 724$ million to $¥ 3$ billion in 1Q 2012. PSC ended the first quarter of 2012 with 714 stores; higher by $24 \%$ compared to the 1Q 2011 level of 577.

Gross Profit stood at $£ 677$ million, while GP in relation to sales went down by $1.3 \%$ owing to the dilution brought about by the increase in Company's sales to franchise stores which are accounted for at zero mark-up.
Notwithstanding this factor, gross profit ratio to sales slightly went up by 0.30 points compared to the level a year ago.

Products in the services category, which form part of the Company's commission income, are physical cards, bills payment and consigned goods. Commission income rose by $42 \%$ to $£ 12.3$ million.

## Other Income

Other income is mainly consisting of marketing income, franchise fees and rentals. The Company's total other income increased by $£ 51.6$ million, to $£ 249.6$ million as a result of the following:

Marketing income grew by $£ 25.3$ million from the 102011 level. This is due to increased suppliersupported ad and promo spending, driven by system innovations that allow an increasing number of options for our supplier partners to build their brands in our stores. The goal is to become the preferred trade partner for manufacturer's brand building needs.

The Company's share in the gross profit of franchise-operated stores is recognized as franchise revenue and it climbed to $£ 142.3$ million from $£ 113.8$ million in 102011 . This was the result of the increase in number of franchise-operated stores that reached 285 at the end of the 1Q 2012. Rent income decreased by 22\%, from 9.8 million in 1Q 2011 to 7.7 million this 1Q 2012.

No significant element of income came from sources other than the result of the Company's continuing operations.

## General and Administrative Expense

General and administrative expense which is comprised of store operating and selling expenses as well as headquarters expenses went up by $26.4 \%$ or $£ 180.4$ million and totaled to $£ 862.6$ million in 1Q 2012.

Communication, light and water were the highest contributor and accounted for $21 \%$ of the total $\mathrm{G} \&$ A expenses for the 1Q 2012. This is followed by outside services with $17 \%$ share, and $13 \%$ share from rent ,depreciation and amortization.

Personnel costs aggregated to $£ 75$ million, versus $£ 79.5$ million in 1Q 2011. Ratio to sales was $2.8 \%$ in 2012 and $4.1 \%$ in 2011. Personnel costs include salaries and wages at $£ 36.6$ million, employee benefits at $£ 36$ million and pension costs at $£ 2.4$ million. The Company continued to outsource store personnel to contain costs.

Moreover, rent expense incurred is pegged $£ 111$ million or $4 \%$ of sales against $£ 97.3$ million or $5 \%$ in 2011.

## Interest Expense

Cost of debt servicing in 2012 totaled to $¥ 3.6$ million, a decrease of $2 \%$ compared with $1 Q 2011$ level of $£ 3.7$ million. Outstanding loan balance at the end of 1 Q 2012 was pegged at $¥ 372.7$ million, decreased by $£ 2$ million from $£ 374.7$ million beginning of 2012.

## Net Income

Net income for first quarter of 2012 increased by P 19 million to $¥ 56$ million mainly coming from higher sales versus last year on a per store basis.

The net income generated during the 1Q 2012 translated into a $2.1 \%$ return on sales and $3.6 \%$ return on equity. The key ratios in 1Q 2012 are higher compared to the ROS and ROE of $1.9 \%$ and $2.5 \%$, respectively, a year ago. Moreover, EPS is pegged $£ 0.16$ and $£ 0.12$, in $1 Q 2012$ and 1Q 2011, respectively.

## Financial Condition

Total assets went down by 78.8 million or $-2.1 \%$ to $£ 3.7$ billion at the end of 102011 . Cash and cash equivalents during the year decreased to $£ 125$ million from $£ 394.7$ million at the beginning of the year. Receivables went down by $£ 51$ million as the company received settlement for collectibles related to supplier support and financing schemes to franchisees. Moreover, inventories went up by £5.6 million while prepayments were up by $£ 145$ million coming from advance rent paid for new stores and down payments to equipment sellers. The aforementioned factors resulted into a net decrease in total current assets by $£ 25.7$ million from the beginning of the year.

Total current liabilities went down by $£ 157$ million or $-8 \%$ mainly due to the decrease in trade payables, bank loans and income tax payable. However, current ratio went up to 0.71 to 1 as of March 31, 2012 against 0.67 to 1 at the beginning of the year.

Property and equipment, net of accumulated depreciation increased by $\$ 56.5$ million mainly due to capital expenditure spent in relation to store expansion.

Stockholders' equity at the first quarter of 2012 comprises $42.5 \%$ of total assets, compared to $40 \%$ at the beginning of the year. Debt to equity ratio pegged at 1.35 for 1Q 2012 from 1.50 end of 2011.

## Liquidity and Capital Resources

The Company obtains the majority of its working capital from these sources:

- Cash flows generated from retailing operations and franchising activities
- Borrowings under the revolving credit facility extended by banks

PSC believes that operating activities and available working capital sources will provide sufficient liquidity in 2012 to fund its operating costs, capital expenditures and debt service. The following are the discussion of the sources and uses of cash for the 1Q of 2012.

## Cash Flows from Operating Activities

Net cash used for operating activities in 1Q 2012 resulted to $£ 55$ million, compared to P60.5 million cash used during comparable period from last year. Such is attributable to increase in income before
tax by 25 million and adjustments for depreciation by 30 million. A much lower cash outflow from working capital by 32 million compare last year also contributed to this amount.

## Cash Flows from Investing Activities

Net cash used in investing activities amounted to $£ 64$ million in 1Q 2012 compared to net cash out flow of $£ 171$ million in 1Q 2011. Major cash outlay went to the procurement of store equipment, new store constructions and store renovations. There were 27 new stores opened as of March 31, 2012.

Majority of the company's commitments for capital expenditures for the 1Q of the year are for new store constructions and renovations. Funds for these expenditures are expected to come from the anticipated increase in cash flows from retail operations and from additional borrowings if the need for such may arise.

## Cash Flows from Financing Activities

Net cash outflow from financing activities reached $£ 5.6$ million representing payments of bank loans in the amount of P2 million, interest expense on outstanding bank loans totaling P3.6 million. Company does not avail bank loan as of the first quarter of 2012.

PSC expects to reduce the level of its debt within the next three years to minimize the impact of interest expense in the net income and consequently reduce the leverage ratios.
